

# Workshop sobre Descomissionamento e Reciclagem Sustentável

## Mesa de Debate 01

05 November , 2025

*Marcelo Dourado, D&R Group Manager at SBM Offshore*

Some of the statements contained in this presentation that are not historical facts are statements of future expectations and other forward-looking statements based on management's current views and assumptions and involve known and unknown risks and uncertainties that could cause actual results, performance, or events to differ materially from those in such statements. These statements may be identified by words such as 'expect', 'should', 'could', 'shall' and similar expressions. Such forward-looking statements are subject to various risks and uncertainties. The principal risks which could affect the future operations of SBM Offshore N.V. are described in the 'Risk Management' section of the 2021 Annual Report.

Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results and performance of the Company's business may vary materially and adversely from the forward-looking statements described in this presentation. SBM Offshore N.V. does not intend and does not assume any obligation to update any industry information or forward-looking statements set forth in this presentation to reflect new information, subsequent events or otherwise.

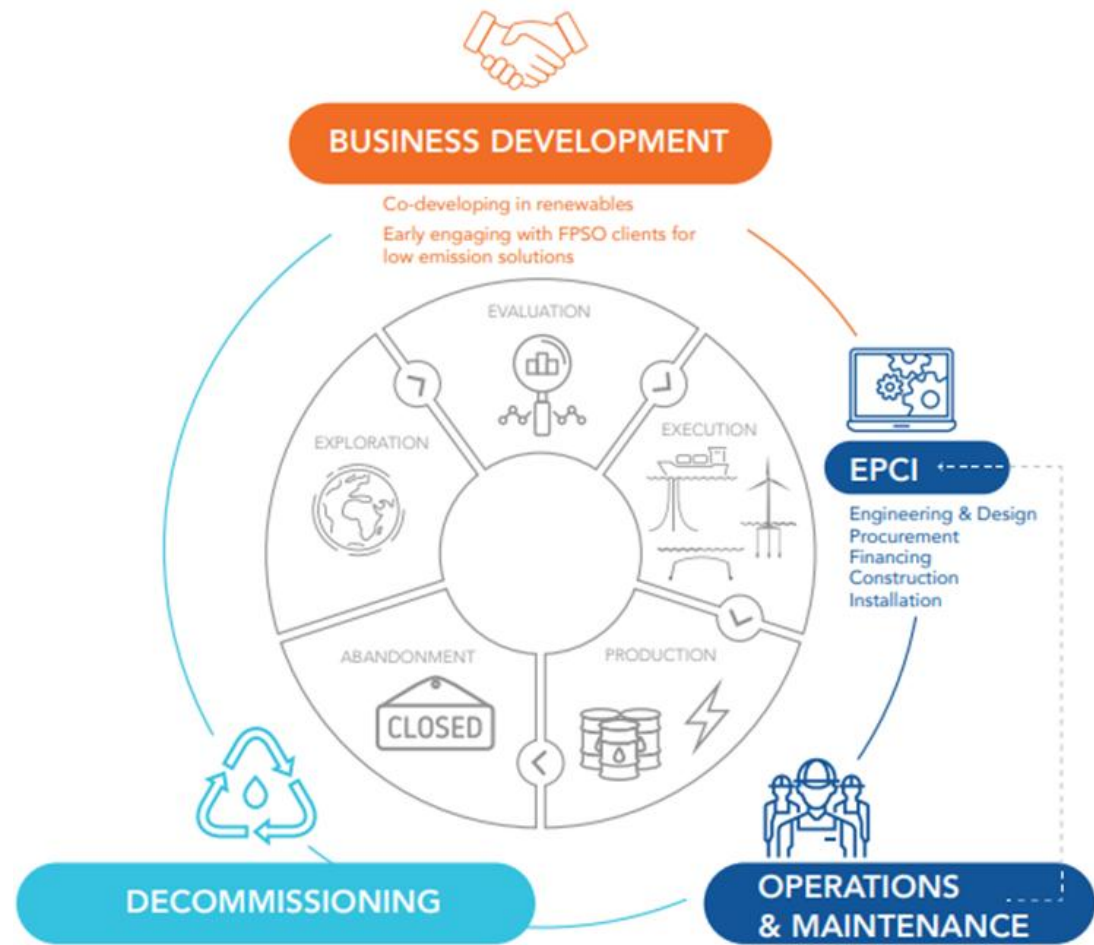

Nothing in this presentation shall be deemed an offer to sell, or a solicitation of an offer to buy, any securities. The companies in which SBM Offshore N.V. directly and indirectly owns investments are separate legal entities. In this presentation "SBM Offshore" and "SBM" are sometimes used for convenience where references are made to SBM Offshore N.V. and its subsidiaries in general. These expressions are also used where no useful purpose is served by identifying the particular company or companies.

"SBM Offshore®", the SBM logomark, "Fast4Ward®", "emissionZERO®" and "Float4Wind™" are proprietary marks owned by SBM. All copyright and other intellectual property rights in this material are either owned by SBM or have been licensed to SBM by the rightful owner(s) allowing SBM to use this material as part of this presentation. Publication or other use, explicitly including but without limitation to the copying, disclosing, trading, reproducing, or otherwise appropriating of information, illustrations etc., for any other purposes, as well as creating derivative products of this presentation, is prohibited without the prior express written consent of SBM.

# SBM Offshore Business Model

## Business Life-cycle

## SBM SDG-linked Targets

### IN 2019, SBM EMBARKED ON THIS JOURNEY

Committed to the values of **Care for people and planet**, SBM comes year after year diving in a true and transparent journey, setting targets and developing roadmaps in line with the United Nations goals. We are committed to **9 SDGs**

2019	2020	2021	2022
Implemented 3 SDGs   	Recycling Policy Updated + 3 SDGs    	Added 1 & Set long-term targets  Set long-term targets for each SDG and develop roadmaps to be completed in 2030*, in line with the UN's goals.	Added 2 more SDGs  

Embark with us on this True.Blue.Transition.

# Ship Recycling Facility - Qualification Criteria

## Regulations & International Conventions

Ensure adherence to the *Hong Kong International Convention for the Safe and Environmentally Sound Recycling of Ships*, *European Ship Recycling Regulation - No 1257/2013*

## Handling of large FPSOs, NORM & Mercury waste

*Demonstrated experience in managing NORM & Hg, including:*

- Identification, safe removal and wastewater treatment
- Temporary storage and in compliance with regulatory standard.

## Prohibition of Beaching Practices

- Strictly prohibit beaching methods.
- Mandate the use of dry-dock or the landing on slope with drainage systems to guarantee environmental protection and worker safety.

## Ship Recycling Plan (SRP)

SRP defining responsibilities and procedures for dismantling, with focus on regulatory compliance, environmental protection, worker's health & safety, and waste segregation.

## Certifications and Audits

Possess relevant certifications (e.g., ISO standards).

Undergo regular audits to ensure ongoing compliance with safety and environmental regulations.

## Marine Growth

Clear guidelines regarding Marine Growth Removal/Management, particularly invasive species such as sun coral (*Tubastraea spp.*), to prevent ecological contamination.

## Hazardous Materials Management

Ensure safe identification, handling, and removal of hazardous materials such as asbestos, PCBs, ozone-depleting substances, heavy metals, and residual oils, in full compliance with international regulations.

## SRF Qualification Checklist

Checklist developed with 400+ items to be evaluated
